

NARMATHI G P

Full Stack Developer | React.js | Node.js | TypeScript
9360842118 | narmathigopalan2002@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Full Stack Developer with 3.5 years of experience building scalable and high-performance web applications using React.js and Node.js. Experienced in designing end-to-end systems including frontend architecture, backend APIs, and database management. Strong expertise in component-based UI development, REST API design, authentication (JWT, RBAC), and performance optimization. Proven ability to deliver production-grade applications including CRM systems and e-commerce platforms with real-world revenue impact.

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript (ES6+), HTML, CSS, Bootstrap
Backend: Node.js, Express.js, Fastify, TypeScript
Databases: PostgreSQL, MySQL, Prisma ORM, SQL
State Management: Context API, Zustand
Authentication: JWT, Casbin (RBAC), OTP-based Login
Tools & Cloud: Git, GitHub, GitHub Actions, AWS EC2, AWS S3, Docker, NPM, Vite, Babel, GCP, Agile

PROFESSIONAL EXPERIENCE

Full Stack Developer | Appteq Technology Solutions Feb 2023 – Present

- Developed scalable full stack applications using React.js, Next.js, Node.js, and Fastify
- Designed and built RESTful APIs and microservices with TypeScript, improving system scalability and maintainability
- Built reusable frontend components with Hooks and Context API, Optimized UI performance, reducing unnecessary re-renders
- Implemented secure authentication and authorization using JWT and RBAC (Casbin)
- Designed and optimized PostgreSQL databases using Prisma ORM for high-performance queries
- Participated in code reviews with team members to maintain code quality, consistency, and adherence to best practices
- Integrated third-party services including payment gateways and SMS APIs
- Collaborated on end-to-end feature development from UI to backend services
- Deployed applications on AWS EC2 and managed file storage using S3
- Leveraged AI-assisted development tools to improve productivity, code quality, and documentation.

KEY PROJECTS

E-Commerce Platforms | React.js, Node.js, MySQL, Razorpay, 2Factor SMS, MVC, AWS S3

- Developed end-to-end full stack e-commerce systems with payment integration, order workflows, and SMS notifications
- Implemented dynamic pricing and backend logic, supporting real-world usage

Hostel Management System | React.js, Node.js, Express.js, MySQL, Prisma ORM

- Built a hostel management system with responsive UI for tenant management, room allocation, and rent automation
- Integrated REST APIs and implemented RBAC-based authorization for secure multi-user access

Dating App Backend & CRM Platform | Next.js, Node.js, TypeScript, Fastify, Prisma ORM, PostgreSQL, JWT, Casbin, AWS EC2, S3

- Built CRM UI using Next.js and integrated REST APIs for user and subscription workflows
- Designed and developed scalable backend services using Node.js and Fastify, implementing JWT-based authentication and RBAC authorization

NOTABLE ACHIEVEMENTS

- Improved application performance through query optimization and efficient API handling
- Designed RBAC system with zero reported security issues
- Deployed applications on AWS EC2 and configured S3 storage
- Worked collaboratively with cross-functional teams
- Participated in requirement discussions and sprint planning

EDUCATION

Bachelor of Engineering – Computer Science & Engineering May 2023
Tamil Nadu, India | 2019 – May 2023

CERTIFICATIONS

Google Cloud | Google Cloud Certified – Associate Cloud Engineer Jul 2026
